

## How to Use Music Player:

Click on any song in the list to play it.

To add a song simply drag and drop any mp3 file into the folder the application resides in.

Either the “.exe” file or “.sln” file.

To delete a song:

1. Play the song
2. Hit the delete key

To search for a song click onto the search box and start typing.

To Scrub through a song drag the red bar across the screen. Clicking a place on the scrub bar will fast-forward you there.

## HotKeys:

- Right/Left Arrow - skip five seconds
- Space: Pause/Play
- Delete: removes current song from playlist
- R: To song looping
- Page Up/Down: Go To Next and previous track
